

Hello I am writting this letter to let you know what Klove Radio 91.1 meand to me and my comm. I would not be saved and konw the Lord if Klove was not around. The radio station hast helped me get involoved in a church and it countines to keep my spirits up. I am a supported of Klove and I done think it is very nice that you take the radio station on the air. We are the ones that are paying ot keep that station on. Please dont take our station off the air. If you do there is NO reason for me to listen to any radio station. There are many people who are touched daily by this radio station and if you take this station off or change it any way the community and my family would never be the same. We wake up every morning and listen to John and Sherry say a prayer to start our day and Kip Johns will say a prayer at the end of our day. These people who come in to our homes everyday are people who no only are fellow christians but are our families because we have got to know them through the radio. Thank you and please dont break up this self supported radio station.
